No. 68-75

TITLE/SIGNIFICANCE:

New Czechoslovakian ARS Type Decontamination Vehicle

COMMENT: This new ARS type decontamination vehicle is being deployed with Czech chemical defense units. It consists of a box-type unit mounted on the rear of the vehicle similar to the boiler on the Polish IRS decontamination vehicle. The storage compartments on both sides of the tank are similar to those on the ARS-12/14. The chassis is a Czech TATRA-148.
